

**DIETARY RESTRICTIONS / NEEDS**  
**International Studies Trip**  
**England and France**  
**March 19, 2015-April 2, 2015**

In advance, we must tell you that England and France food are little different than American cuisine. Like your sponsors, please try all the food and don't decide you don't like it just because you have never tried or heard of it.

Please fill out the bottom form if you have any major food allergies or dietary restrictions or needs. Please do not write you have an allergy to something just because you don't like it, because what you get could be worse.
